**RE: Letter of support for Roads Australia's new Road Worker Safety Industry Guideline**

Dear Mandi,

On behalf of Transurban, I am pleased to provide a letter of support for Roads Australia's new Road Worker Safety Industry Guideline.

Keeping people safe on Transurban's roads and the broader road network is a priority for our business. Work in live traffic is a necessary part of building, operating and maintaining safe roads and we take all reasonably practicable steps to protect workers on our roads.

Transurban engages with the traffic management industry, government transport and road safety agencies, police and our own contractors to share experiences and work together to identify and implement measures to manage emerging issues in the road safety space.

A good example of this is the Transurban Contractor Forum held in October 2023 where our operations and maintenance contractors came together to hear from each other on key issues, solutions and innovation.

We also regularly run customer and community communications campaigns to increase awareness of the importance of slowing down to the posted speed limit through roadwork zones.

As a founding member of the Roads Australia Road Worker Safety Working Group, Transurban supports the Road Worker Safety Industry Guideline, and we welcome the opportunity to promote this initiative through our stakeholder networks.

Please contact Transurban's Acting General Manager HSE and Road Safety, Liz Waller, on 0428 569 738 or via [ewaller@transurban.com](mailto:ewaller@transurban.com) for further information and to discuss how Transurban can support the rollout of this important guideline.

Yours sincerely

**Michelle Jablko**  
Chief Executive Officer
